CONNECTIVITY KITS

Macbook VGA and Networking Connectivity Kit

Comprehensive Connectivity Kits conveniently compile all the needed cables, adapters and accessories to connect your device to a monitor, projector and/or network!

Comprehensive's Macbook VGA and Networking Connectivity Kit allows you to connect your Mac to any VGA external monitor. Comprehensive's kit also allows you to connect to your network through a high speed ethernet adapter.

The kit includes a Mini DisplayPort to VGA adapter, which lets you connect any Mini DisplayPort or Thunderbolt compatible Mac to a VGA external monitor via Mini Displayport/Thunderbolt. Also included in this kit is a USB to ethernet adapter with Cat5e cable, which adds wired network support.

Comprehensive Connectivity Kits are the must have accessory for anyone using a ChromeBook, Ultrabook, Tablet, Laptop or Smartphone! They are perfect for all mobile and presentation applications including Systems Integration, Education, Government, Corporate as well as for business professionals on-the-go!

Never be caught short again without the adapters, cables and interfaces you need for your next presentation with Comprehensive's Connectivity Kits!
